

Allscripts would like to thank our sponsoring partners for their support!

## Platinum Sponsors

Dell offers a complete portfolio of innovative healthcare solutions, along with those of our hospital information systems (HIS), radiology information systems (RIS) and digital imaging partners. Together, our best practices can help you integrate all aspects of patient care and improve your overall efficiency.

Intel helps to connect people and information in new ways that increase patient care and safety, reduce healthcare costs, and improve quality of life across the continuum of care. We develop new health technologies for individuals in the home or on the go, and collaborate with healthcare professionals to enable seamless interaction and information exchange.

## Silver Sponsors

Dictaphone Healthcare Solutions is a division of Nuance Communications, a leading provider of speech and imaging solutions. Nuance's Dictaphone® software solutions orchestrate and optimize clinical workflow, reduce transcription expense, raise standards of care via more thorough documentation, deliver results rapidly to meet patient safety guidelines, and heighten clinician satisfaction by making EMR systems easy to use. Dictaphone's solutions accelerate the adoption of clinical information systems, so provider organizations can maximize the return from their IT investments.

*Diagnostics Group*

Midmark® Diagnostics Group, the industry leader of integrated diagnostic devices, offers Resting ECG, Holter and Spirometry through its IQmark™ product line. These pocket-sized products turn your computer into a diagnostic device by directly connecting to your computers communication ports. This connection enables direct acquisition of diagnostic test data into your EHR.

Allscripts has made a strategic decision to partner with certified document conversion centers to further enhance its core offerings and support our clients in the journey from paper charts to a fully functioning Electronic Health Record. Allscripts Strategic Capture Alliance Network (S.C.A.N.) is a network of scanning partners, through its three leading members Active Data Services, Document Imaging Technologies and Document Imaging Systems Corp, supports Allscripts implementations through professional, cost effective solutions from backfile scanning to conversion advice for clients based on years of experience.

Navicure is a leading provider of Web-based account receivables management solutions that help physician practices increase practice profitability through improved claims reimbursement and staff productivity. Serving thousands of physicians in practices nationwide, Navicure's solutions automate receivables processes, including patient eligibility verification; primary and secondary claims reimbursement; rejected and denied claims management; electronic remittance posting; claims and remittance reporting and analysis; and patient statement processing.

Motion Computing slate Tablet PCs and the C5 Mobile Clinical Assistant are designed to enhance the quality of patient care and improve patient safety with streamlined clinical workflows and increased clinician mobility and productivity. Motion combines these products with services and unique market knowledge to deliver customized complete solutions—platforms, peripherals, services and wireless.

## Bronze Sponsors

3M Health Information Systems delivers technology and consulting solutions that can help healthcare organizations improve patient care, facilitate compliance, and achieve appropriate reimbursement. Built on over 25 years of expertise, 3M Health Information Systems provides the tools to capture, store and analyze patient information and enable an electronic patient record.

PatientLink Enterprises began in 1999 with the development of PatientLink Scan, a software package allowing patients to mark a "bubble card" which is then scanned into the Electronic Health Record as discrete data. The data is presented to the physician within the EHR and is completely editable. PatientLink has over 1100 clinics and 5000 physicians using PatientLink Scan. The ease of use and time savings gained has made PatientLink Scan a "must have" for thousands of physicians!

Advancing Frontline Care™

Welch Allyn is a leading global manufacturer of medical diagnostic equipment, cardiac defibrillators, patient monitoring systems, and a complete range of digital and connected solutions. From innovative diagnostic instruments and user-friendly defibrillation solutions, to our EHR-connected multi-parameter vital signs monitors and pc-based cardiopulmonary products, Welch Allyn devices help enhance caregiver workflow and improve patient outcomes.
